

UMBRELLA SEASON

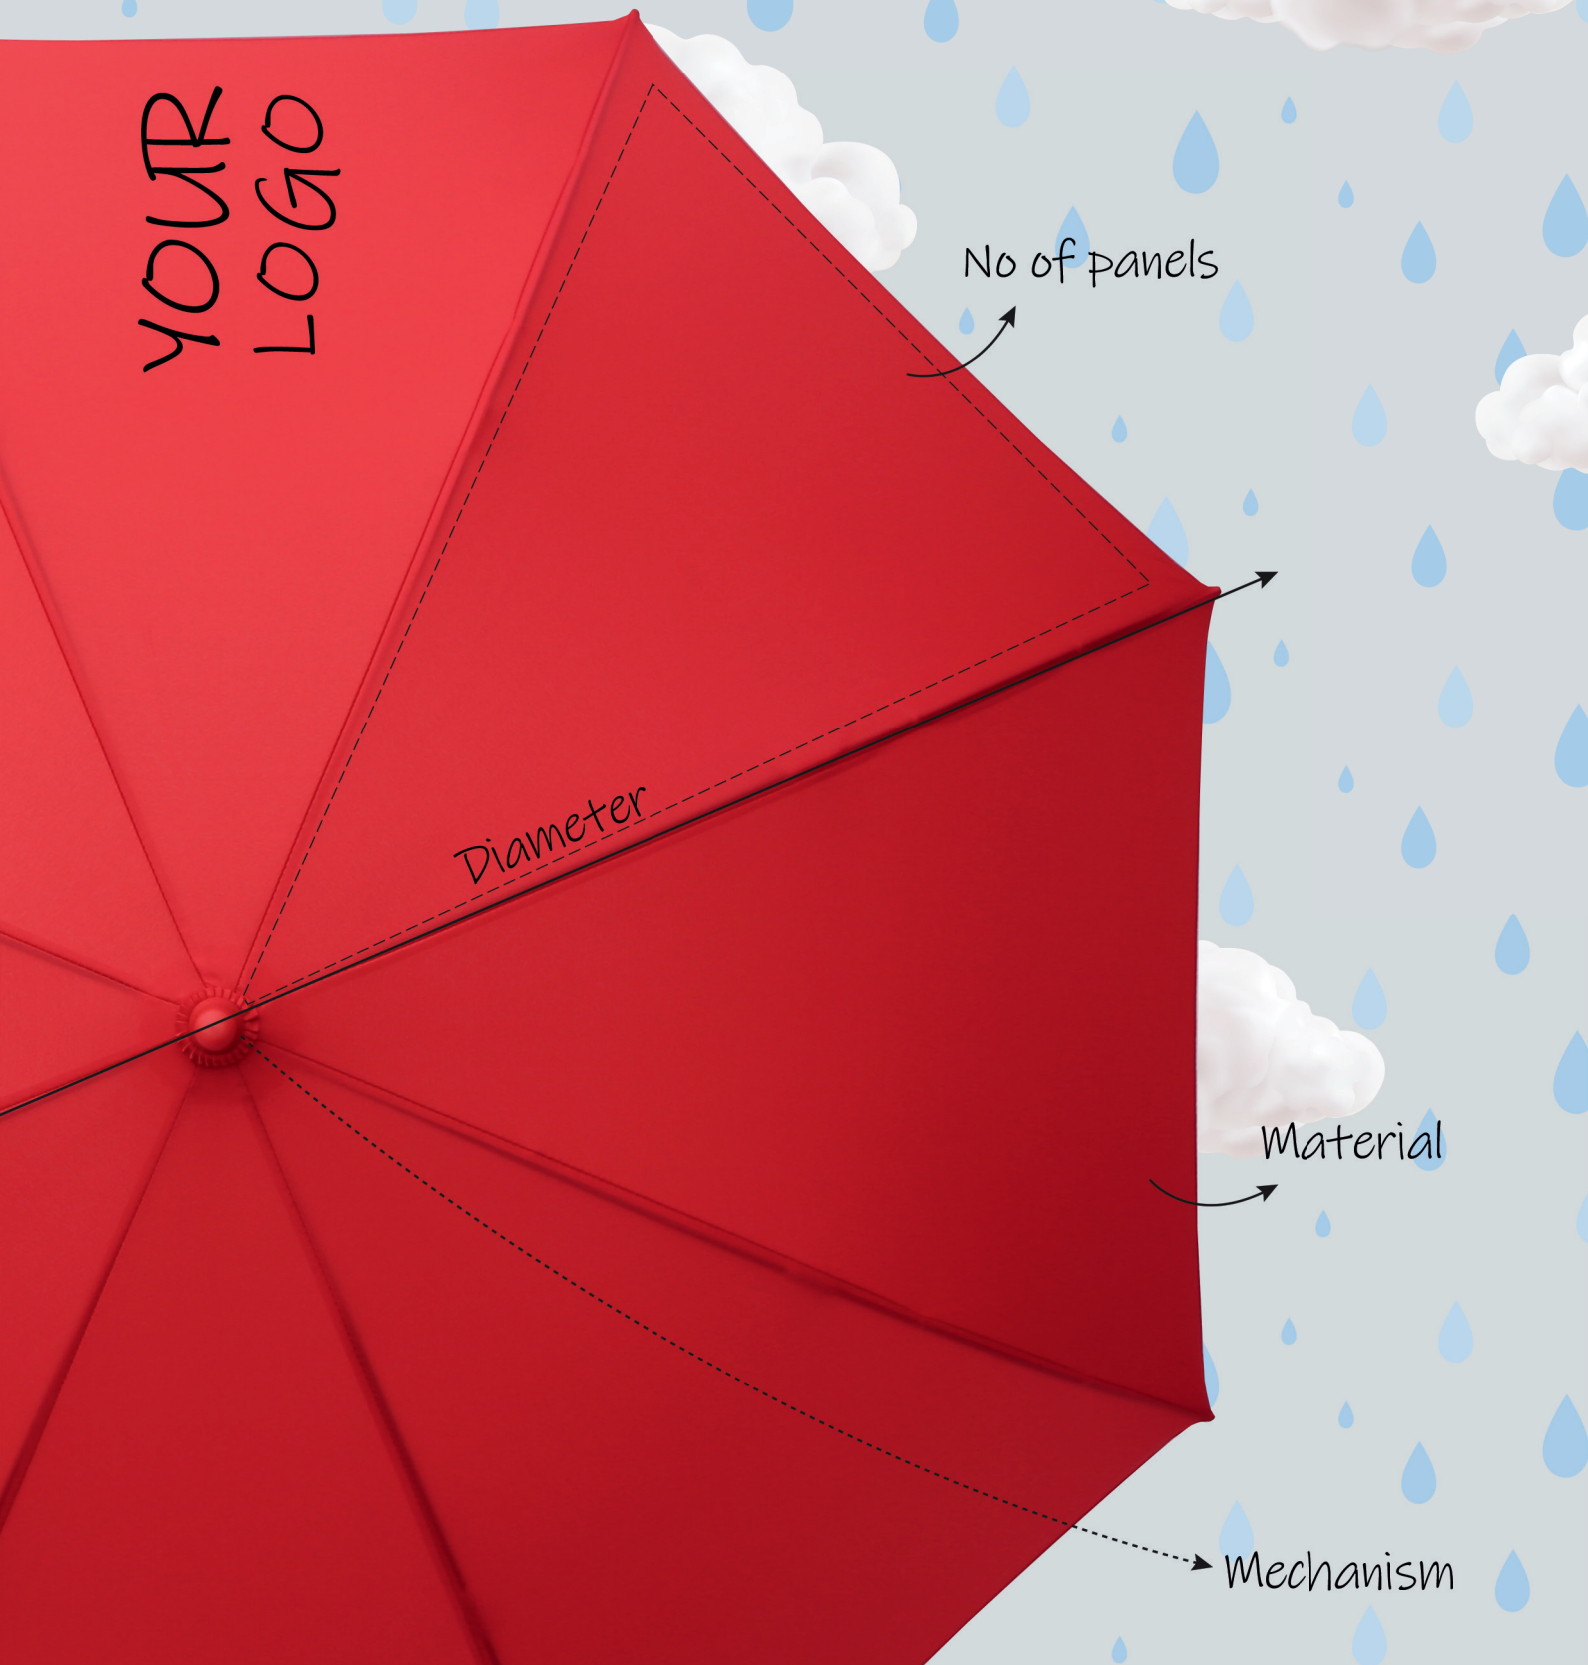

SHORT GUIDE

UMBRELLAS 2021

Umbrella has always been an important part of the promo world. Brands often choose umbrellas for promotion, because they are one-of-a-kind advertisements in movement, they are functional, always trendy and their printing area is remarkable.

We have started from the very basics – traditional stick and foldable umbrellas. Today, our collection possesses modern *automatic mechanisms*, *natural and recycled materials*, *UV protection* umbrellas with ergonomic handles and over *20 different colors*, in total.
